

HOUSTON COUNTY BOARD OF EDUCATION
2012 SPLOST PROPOSED PROJECTS

TECHNOLOGY UPGRADES - ALL SCHOOLS

Upgrade Technology in all schools based on grade and need to include teacher and staff workstations, student computer labs, classroom student computers, classroom projectors, classroom interactive boards, document cameras, student response systems, slate airliners, student laptops, and printers. Systemwide and school upgrades include modernization of routers, switches, servers, student information and operating management systems and systemwide wireless capability.

SECURITY AND SAFETY UPGRADES - ALL SCHOOLS

Upgrade security and security camera systems based on need and current capability to include additional cameras in school hallways and grounds. Renovation of school entrances to include secured vestibules where needed to ensure visitors are routed to the school offices.

RENOVATIONS, MODIFICATIONS, ADDITIONS, AND IMPROVEMENTS - SYSTEMWIDE

Based on detailed needs analysis by location, improvements include updated and more efficient HVAC replacement of older systems, improved lighting, replace carpet with tile in many elementary and middle school hallways, replace carpet in gyms with sports flooring, renovate mechanical systems and fixtures, kitchens, and site upgrades including additional parking and stormwater allowance.

NEW CONSTRUCTION - SCHOOLS

Perry Primary - replace with a new elementary school.

Pearl Stephens Elementary/Houston County Crossroads Center - Temporarily house the Houston County Crossroad students at Rumble. Removal and demolition of C. B. Watson building and build new elementary at former C. B. Watson site. Renovate and improve the current Pearl Stephens Elementary to include replacement HVAC systems, gym upgrades, additional security measures, and flooring for permanent relocation of the Houston County Crossroads Center.

SUBSTANTIAL RENOVATIONS, MODIFICATIONS, AND IMPROVEMENTS - BY SITE

Linwood Elementary - renovation and improvements to include major kitchen renovation, roof, HVAC replacement, all mechanical systems, interior renovation, and additional parking and bus loops.

Houston County High - renovations and improvements to include HVAC replacement and plumbing improvements, mechanical systems, lighting, interior renovation and finishes, roof repair, and replacement bleachers.

Northside High - modifications to include removal and demolition of older Tabor Academy classrooms and cafeteria to be replaced by new classroom addition and kitchen/cafeteria.

Warner Robins High - modifications to include removal and demolition of Rumble Academy main campus to be replaced by additional fields and sites. Substantial HVAC replacement.

McConnell Talbert Stadium - renovations to include repairing storm drainage systems, renovate bathrooms, replacement field lighting, track resurfacing, and press boxes.

NEW CONSTRUCTION - OTHER

Central Bus/Transportation Facility - to include additional maintenance bays and adequate parking for buses.

New Stadium - to relieve the overuse of current stadiums.

Central Tennis Facility - construct a 12 court tennis facility including lights and parking.

All High Schools - construct/resurface practice tennis courts at each high school.

LAND

Purchase additional property for future facility needs.

All projects are contingent upon sufficient funding being collected. Technology and facility upgrades that have the greatest impact on student achievement and welfare will be addressed first.
